

Caitlyn Jeri Linehan

Santa Barbara, California | caitlynlinehan@ucsb.edu | www.linkedin.com/in/caitlyn-linehan | <https://caitlynjeri.wixsite.com/caitography>

EDUCATION

University of California, Santa Barbara

- *PhD in Geography*; Advisor: Dr. Trisalyn Nelson

Santa Barbara, California

Expected June 2027

Lehman College (CUNY)

- *M.S. in Geographic Information Science*; Advisor: Dr. Yuri Gorokovich
- *Thesis*: An Application of the SLEUTH Model: Future Urbanization of Davidson County; ([Link](#))

Bronx, NY

Received May 2021

Trinity College

- *Bachelor of Science in Environmental Science*

Hartford, CT

Received May 2019

AWARDS/HONORS

- Nominated for the Outstanding Teaching Assistant Award (2026)
- Awarded 2nd place for the Graduate Paper Session at the 2025 Middle States AAG (2025)
- Women's Network Small Grant Recipient at the Association of Pacific Coast Geographers (APCG) Regional Meeting (2025)
- Christopherson Geosystems Award for Excellence in Applied Geography/Earth Systems at APCG Meeting (2025)
- Dwight David Eisenhower Transportation Fellowship Recipient (2024)
- AAG Council Award for Best (Graduate) Student Paper at a Regional Division Meeting (2023)
- President's Paper Award for Outstanding Doctoral Paper at Regional Meeting (2023)
- Eugene Hoerauf Scholarship Recipient at the Association of Pacific Coast Geographers (APCG) Regional Meeting (2023)
- Featured [Geospatial Student Spotlight](#) at eSpatially on July 2021
- Awarded 1st place for the Graduate Poster Session at the 2020 Middle States AAG
- Featured [Student Work](#) of Lehman College's Department of Earth, Environmental, and Geospatial Sciences
- Posse Foundation Full-Tuition Leadership Scholarship (2015-2019)

RESEARCH AND WORK EXPERIENCE

Center for Spatial Studies and Data Science

Santa Barbara, California

GIS for Journalism and Public Policy Fellow

Summer 2025-Present

- Conduct GIS analysis to produce maps that are used in relevant opinion pieces

University of California, Santa Barbara & Davis

Santa Barbara, California

Research Assistant

March 2024- Present

- Compared theoretical and data-driven modeling approaches for evaluating active transportation infrastructure impacts in Santa Barbara and Santa Cruz; assessed predictive accuracy and practical utility of statewide versus locally calibrated models for monitoring changes in walking and bicycling volumes

Research Assistant

September 2021- November 2023

- Estimate the amount of trips taken by active transportation modes across California counties and cities to address barriers to the safety of underserved road users such as pedestrians and bicyclists

Columbia University, Earth Institute, CIESIN

Palisades, NY

Intern

August 2020- December 2020

- Analyzed VIIRS nighttime lights data in both Oaxaca, Mexico and Nashville, TN to explore the relationship between nighttime luminescence imagery and population density

New Yorkers for Parks

Manhattan, NY

Research and Planning Intern

September 2019-August 2020

- Used spatial analyses to create the 2020 Community Board District maps, serving advocacy groups by displaying public open spaces and quality of life measures such as health and socioeconomic statistics in ArcGIS [Publication](#)

TEACHING AND MENTORING EXPERIENCE

- Mentoring an undergraduate research assistant on the School Mental Health and Community Safety Mapping Project, an interdisciplinary collaboration between the Departments of Geography and Counseling, Clinical, and School Psychology
- Supervising spatial analysis of relationships between student mental health data, community gun violence, and school mental health staffing ratios across California schools using GIS

Recipient of Certificate in College and University Teaching (CCUT) and Certificate in Inclusive Teaching (CIT) October 2025

- Completed comprehensive pedagogical training program demonstrating competencies in: applying research and principles of student learning; planning equitable, inclusive, and accessible instruction; implementing evidence-based teaching innovations; and effectively instructing as Instructor of Record

Instructor & Teaching Assistant

Fall 2021/Winter 2022/Fall 2023/Winter 2024/Summer 2025

Course: Geography W12: Maps and Spatial Reasoning

- Redesigned the course and developed quiz, lab, and course material for a 6-week summer session; led the laboratory portion of this course in which both labs and presentations were utilized to familiarize students with the various properties of maps

Thesis Advisor

September 2024- June 2025

- Mentored Lainey Djajkusuma in her undergraduate thesis titled: *Co-Benefits in Green Infrastructure Site Selection and Policy: A Case Study of Goleta, California*

Lehman College (CUNY)

Bronx, NY

Internship Advisor

October 2023-June 2024

- Advised an undergraduate student for a 13 hour a week/ 13 week internship in data entry, learning R/RStudio, and making ArcGIS Story maps and met with them weekly

LaGuardia Community College

Queens, NY

Adjunct Laboratory Instructor

Summer 2020/Summer 2021

Course: SCG150 Introduction to Geographic Information Systems

- Led the laboratory portion of this course in which both labs and presentations were utilized to familiarize students with the GIS software to accomplish course goals & helped transition the curriculum to an online format due to COVID-19

Bronx Community College Geospatial Center of the CUNY CREST Institute

Bronx, NY

NSF-ATE Geospatial Workshop Instructor

May 2019-August 2019

- Taught high school workshops that aimed to give participants knowledge about spatial concepts, the ability to gain hands on skills, and meet experts in the geospatial industry

Summer Workforce Research Internship Mentor

June 2019- August 2019

- Mentored seven Bronx high school students in a geospatial research project in which they compared the quality of life in various U.S. counties by using socioeconomic variables

TALKS AND PRESENTATIONS

Annual Meeting: Middle States American Association of Geographers, Montclair, NJ November 2025

Title: Who Gains, Who Loses? Equity Impacts of Park Closures and Open Streets

Annual Meeting: West Lakes Division of the American Association of Geographers, Milwaukee, WI October 2025

Title: The Uneven Geography of Outdoor Dining: Implications for Pedestrian Spaces

Annual Meeting: Association of Pacific Coast Geographers, Santa Clarita, CA October 2025

Title: Who Gains, Who Loses? Equity Impacts of Park Closures and Open Streets

2025 American Association of Geographers Annual Meeting, Detroit, MI March 2025

Title: A Systematic Review of Crowdsourced Pedestrian Data

2024 American Association of Geographers Annual Meeting, Hilo, HI March 2024

Title: Improving the denominator of safety rankings for bicycle and pedestrian safety

Annual Meeting: Association of Pacific Coast Geographers, Ventura, CA October 2023

Title: Improving the denominator of safety rankings for bicycle and pedestrian safety

Geography Colloquium, University of California, Santa Barbara November 2022

Title: Improving the representativeness of VGI (volunteered geographic information) data: a pedestrian mobility case study

SERVICE

UCSB GIS Faculty Hiring Search Committee Santa Barbara, CA

Student Representative, September 2023 - May 2024: Reviewed applications and interviewed applicants

UCSB Graduate Student Advisory Committee for Department Chair Santa Barbara, CA

Cohort Representative, September 2022 – June 2025: Gathered and presented feedback from my cohort in order to communicate the needs of my peers and serve as a bridge between students and the department chair

Letters to a Pre-Scientist Remote

STEM Professional, August 2020-May 2021: Wrote letters to a middle school student from Chicago who is interested in STEM to help demystify STEM pathways and encourage them to explore interests of their own

SKILLS/TRAINING

Spatial Analysis: ArcGIS Pro, ArcGIS Online, QGIS, Sentinel Application Platform (SNAP), Trimble Juno, Remote Sensing |

Coding: R, Python | Design: Adobe Illustrator, Adobe Photoshop
